Attn: Mr. Robert Dickson

Dear Mr. Dickson:

In response to your April 15, 2013 letter concerning maintenance work along Potter Valley Road, I am pleased to inform you that funding has been secured for work to take place during the 2013 construction season.

Municipal Street Maintenance crews will begin work in July; the project will consist of reestablishing adequate ditches; cleaning and replacement of culverts; brush cutting; and other necessary maintenance issues along the entire length of Potter Valley Road. We anticipate the work to take three to four weeks to complete. Residents will experience some minor traffic delays during construction but we will make every attempt to minimize those delays. We will position an electronic reader board at the bottom of Potter Valley Road a few days before work begins so residents will be aware of the upcoming construction.

If you have any further questions please contact me directly.

Sincerely,

Daniel Southard
Municipal Public Works Superintendent
