

Potter Creek Homeowners Association

Satellite Dish Installation Request

(Form 3)

This form must be completed and submitted with a sketch of the installation for which approval is being requested. Please provide sufficient information to allow a comprehensive review.

Requestor Information

Homeowner Name: _____ Lot Number: _____

Address: _____

Phone Numbers: Home _____ Work _____ Cellular _____

General Guidelines (See DSP's for full requirements)

- All efforts should be made to minimize the aesthetic impact of the dish installation from the street.
- Care should be taken to avoid impacting a neighboring home primary view.
- A courtesy notification to your neighboring homeowners is strongly recommended.
- To speed up the review process, please provide a detailed sketch of the installation showing placement on the residence and / or lot and the expected elevation of the dish; also indicate if it is expected to protrude above the roof line of the residence.
- Cables, masts and other hardware should be painted to blend with the colors on the home
- Please remember the PCHOA DRC review is limited to the determination of compliance with the Association DSP's. It is the responsibility of the homeowner to ensure compliance with all municipal, state, and/or national building codes and standards.
